

A close-up photograph of a pair of weathered, brown hands cupping a small, vibrant green seedling with four leaves. The seedling is growing out of a mound of dark, rich soil. The background is a blurred, dark surface of soil.

Jude

Revelation

God's seed can only produce  
what is consistent with the  
DNA of that seed.

We are the soil where the  
seed of God lands .

Jesus could see the  
condition of the soil of  
their souls.

A wide-angle photograph of a dirt path cutting through a vast agricultural field. The field is filled with dense, low-growing plants, likely corn, showing a mix of green and yellowish hues. The path is a narrow, light-brown strip of earth that recedes into the distance. On the left side, there is a line of trees, including a large, rounded tree. The sky is overcast and hazy, creating a soft, diffused light across the scene. In the lower portion of the image, there is white text with a yellowish-green shadow or underline effect.

Some can relate to the soil  
along the path.

Some can relate to the soil  
that is rocky and shallow.

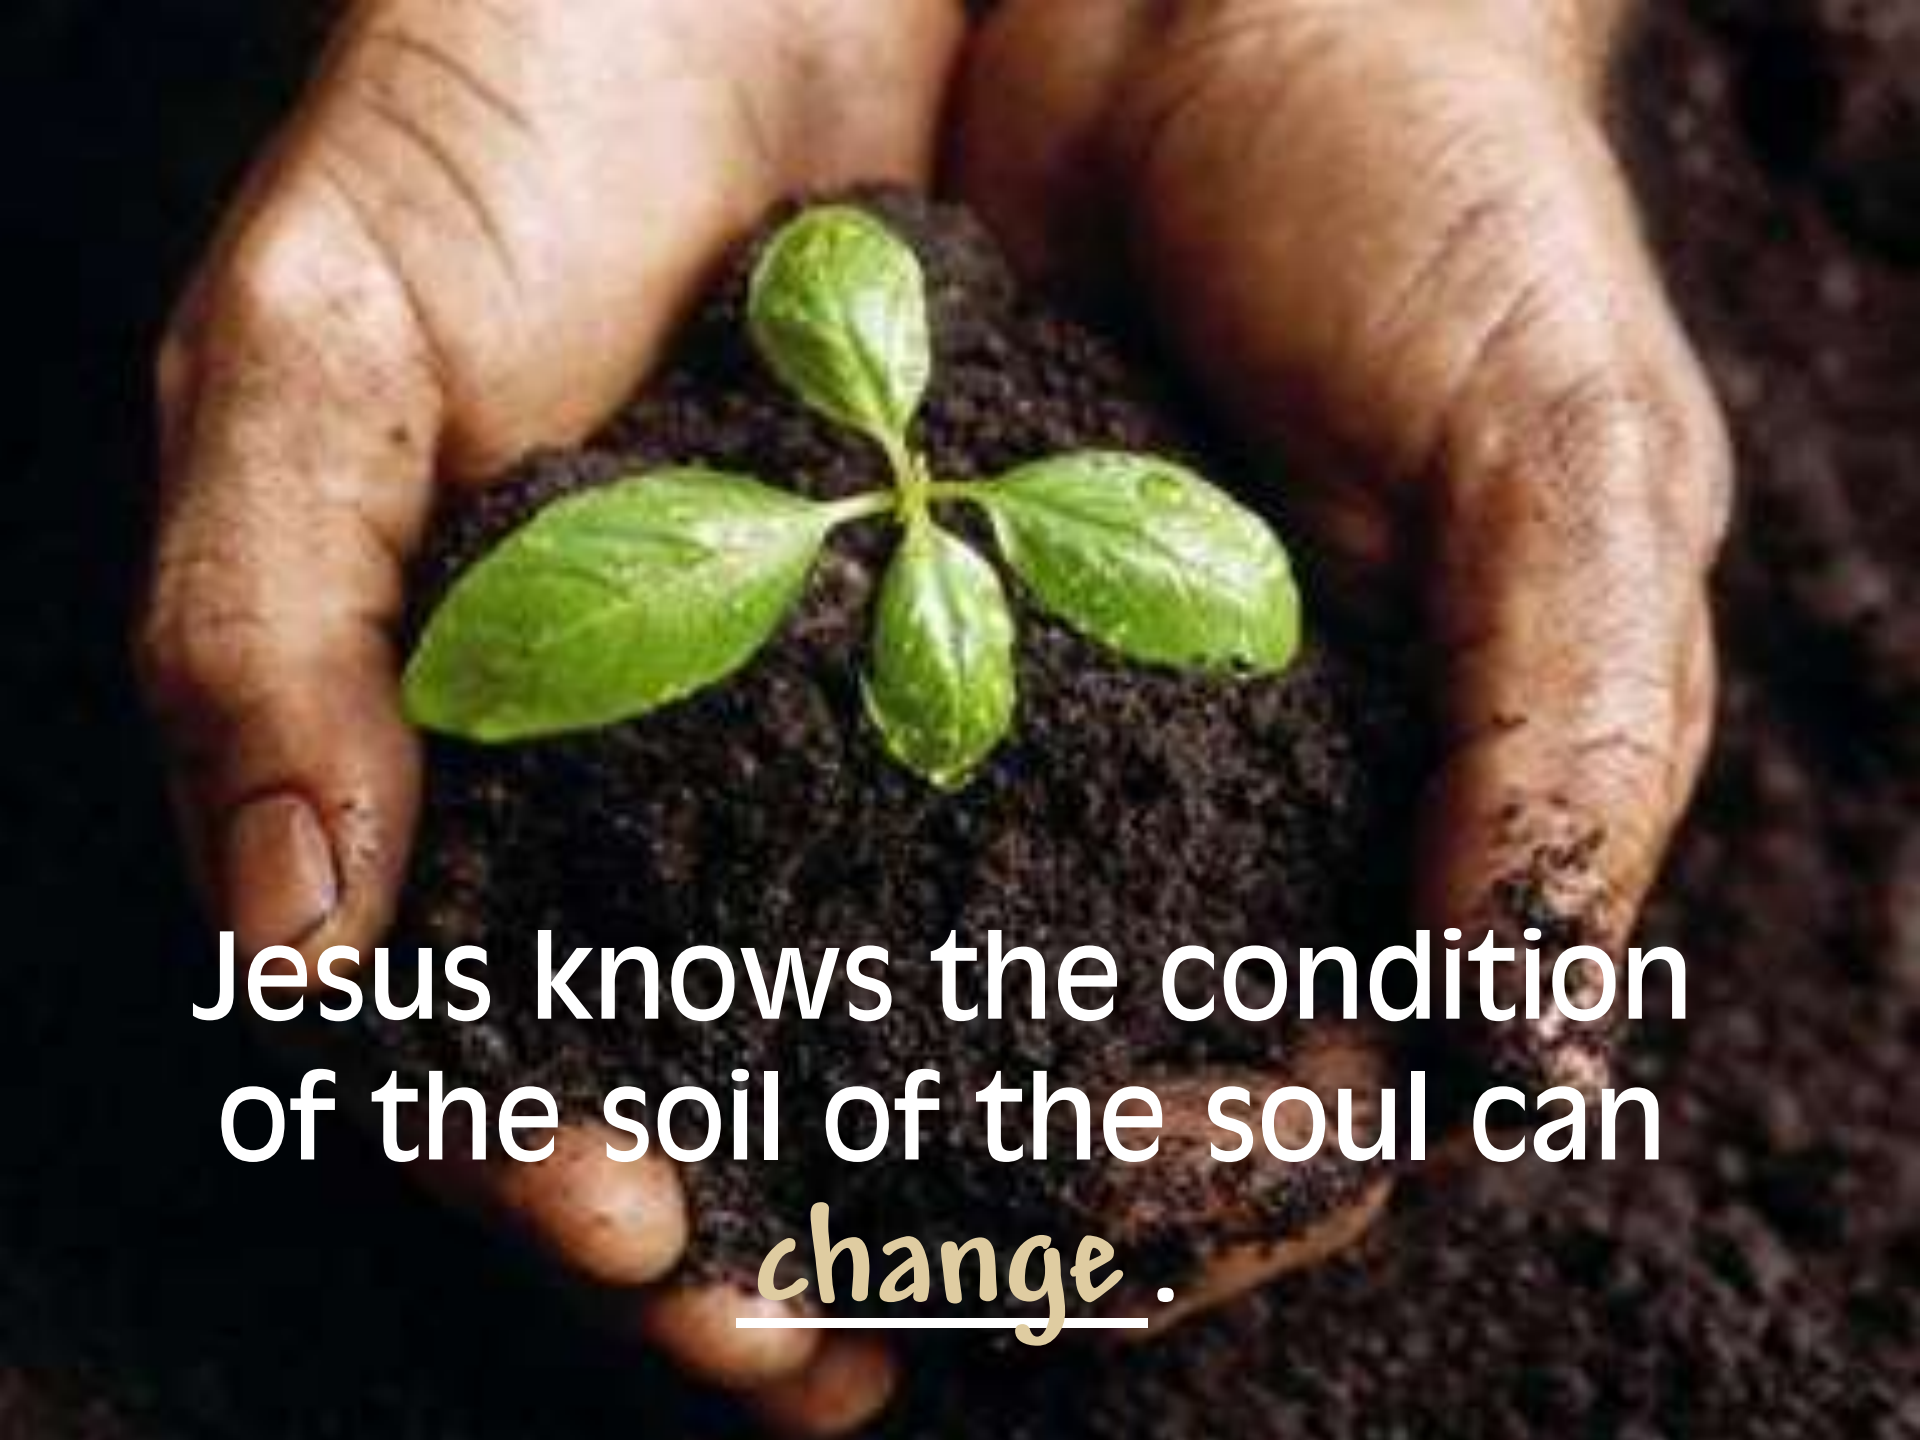

Some can relate to the soil  
that is full of thorns  
and weeds.

Some can relate to the soil  
that is good dirt.

Jesus knows the condition  
of the soil of the soul can  
change .

*Love God. Love your neighbor. And live.*

**This week  
be in special prayer for:**

**Regina Sommers**

You are invited to share hot drinks which will be available for 15 minutes following the conclusion of the worship service.
